HPFS
HIGH PERFORMANCE FORK SPRINGS

SPECIFICATION.

K-Tech fork springs are manufactured from the highest grade Chrome Silicone wire, each spring is cold coiled, heat treated, pre set and ground to length before being polished for ultimate performance.

All springs have their rate laser etched on the end and are manufactured to DIN 2095 grade 1.

- Cold coiled
- Heat treated
- Tempered
- Shot peened
- Ground ends
- Polished for reduced friction and smoother performance
- Part number etched

SPECIFICATION.

K-Tech shock springs are manufactured from the highest grade Chrome Silicone wire, each spring is cold coiled, heat treated, pre-set and ground to length. Phosphate coating is then applied to protect against corrosion and then powder coated before the part number is applied.

All springs are manufactured to DIN 2095 grade 1.

- Cold coiled
- Heat treated
- Tempered
- Shot peened
- Ground ends
- Zinc phosphate coated
- Epoxy powder coated
- Part number printed

SPECIFICATION.

K-Tech front fork dust seals are manufactured by NOK and are a direct replacement for the original equipment parts. NOK are chosen as original equipment by all Japanese suspension manufacturers for their quality and durability.

All dust seals are supplied in pairs and available for most fitments.

SPECIFICATION.

K-Tech front fork guide bushes are a direct replacement and manufactured to the exact standards of the original equipment parts. They are manufactured from hardened steel and coated with copper for added protection. The contact surfaces are a PTFE material designed to give low friction on the moving parts.

All guide bushes are supplied in pairs and available for most fitments.

SPECIFICATION.

K-Tech front fork slide bushes are a direct replacement and manufactured to the exact standards of the original equipment parts. They are manufactured from hardened steel and coated with copper for added protection. The contact surfaces are a PTFE material designed to give low friction on the moving parts.

All slide bushes are supplied in pairs and available for most fitments.

SPECIFICATION.

K-Tech shock absorber service kits are supplied with an oil seal, dust seal, piston rod bush and most O-Rings needed to service a shock absorber. All of the service parts are either equal or exceed the quality of the original parts.

Most service kits are supplied with a new piston rod lock nut for added security when rebuilding the shock absorber.

SPECIFICATION.

The K-Tech Off Road Damping System has been designed for lightweight off road motorcycles. Designed and manufactured in the UK they use the highest quality materials and processes. The system provides the rider with control and confidence in demanding off road conditions. The cartridge features a hydraulic bottoming control system which protects the rider from severe impacts when landing from large jumps. The ORDS cartridges are adjustable for compression and rebound damping.

- 32 clicks independent compression adjustment
- 32 clicks independent rebound adjustment
- Hydraulic bottoming control system
- Direct replacement (No machining required)
- Hard chrome piston rod
- Aircraft grade aluminium
- Hard anodised and super finished components
- Wide range of spring rates available

SPECIFICATION.

The K-Tech Off Road Spring System has been designed to replace the air system in the latest off road motorcycles, this simple design allows you to remove the original air spring system and replace it with a more conventional spring system. This direct replacement spring system requires no machining to install and also features external spring preload adjustment.

- Spring preload adjustment
- Direct replacement (No machining required)
- Hard chrome piston rod
- Aircraft grade aluminium parts
- Wide range of spring rates available

SPECIFICATION.

K-Tech shock absorber piston bushes replace the original equipment Teflon fitment. They are manufactured from a hardened steel and copper coated, the wearing surfaces are a PTFE material designed to give low friction. All piston bushes are supplied with O-Rings needed and available for most fitments.

SPECIFICATION.

K-Tech front fork and shock absorber tuning parts are designed to help suspension technicians to improve the performance of original equipment products. All parts are designed to the exact standards as all other K-Tech products using over fifteen years of competition expertise to provide High Performance Tuning Parts.
